

Development Programmes

Leaders aiming to improve sectors in places need to assess the complex realities faced and develop a coherent strategy with a smart set of development solutions. These solutions need to produce the best results, with limited resources available.

DEVELOPMENT PROGRAM GROUPS provide a workspace for the sector development planning, implementation, monitoring and evaluation. Choices are made regarding strategic priorities and which projects to invest in. Planned versus actual results are reconciled to inform future planning cycles.

A DEVELOPMENT PROGRAM GROUP is a “child” of an INTEGRATED DEVELOPMENT GROUP and is the “parent” of many DEVELOPMENT PROJECTS.
