

EzyED's fast and innovative technology means more results and lower costs.

Participants collaborate in online work spaces to develop solutions where they instantly gain access to all the software, tools and information required to work more efficiently.

These tools make it easy to keep everyone informed and on the same page with regards to goals, methods, roles, deadlines, progress, issue resolution and more. Members work more accurately and efficiently as they always have access to the correct version of the information.

Automatic record keeping eliminates the need for progress report writing and the need for meetings to update others. The date stamp records make it easy to monitor progress and provide openness and transparency where needed.

Register now to create your own profile. Connect and collaborate. Alternatively, contact us to find out how best EzyED can help you.

Description

Hi Sonia,

I'm working on the promo video and want to incorporate some of the characters into it - is it possible to get individual people? If not I can work with the group ones we have.

Let me know.

Thanks.

Solution

Thanks Sonia!
